

Update scoring regulations due to COVID-19

Since the iESC 2020 is taking place in a period where social distancing is mandatory, the organization has taken the necessary steps to make the event safe for participants. Due to this fact, the presentations of the teams will not be going on. This also means that the scoring of the presentation will not be included in the total scoring. The scoring below is the scoring system that the teams will get with this in mind. The scoring of the presentation will be left out and the maximum points will be 90 instead of 100.

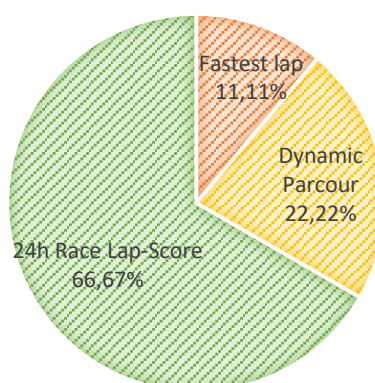

This document overrules the scoring system as published on the website.
